

VTM106

VTM106+Flush mounted box

- Material: SPCC t=0.8, powdered metal surface (Black DH920C2)
- Dimensions: 397.1mm×146.0mm×64.0mm (15.65"×5.75"×2.52")
- Wall Opening Dimensions: > 379.6mm×128.0mm×64.0mm (14.96"×5.04"×2.52"), < 397.1mm×146.0mm×64.0mm (15.65"×5.75"×2.52")

Installation

- Step 1** Cut an opening with the size of the mounting box in the wall.
- Step 2** Pull the reserved cables through the cable hole in the mounting box.
- Step 3** Fix the mounting box in the wall with cement or screws.
- Step 4** Connect the cables to the ports on the VTO rear panel.
- Step 5** Fix the VTO in the mounting box with the screws.
- Step 6** Put sealant between the VTO, mounting box, and the wall.
